COURSE DETAILS

Course Duration
6 Months

Live Classes
5 hours per week

Certification
From IIM Trichy

Module 1: Foundations in Product Management

- This module builds a strong foundation in product thinking, customer-centric development, and product lifecycle understanding.
- It introduces roles, responsibilities, and key frameworks that define the product management function.

Module 2: Managing and Scaling Digital Products

- This module dives into managing live digital products, scaling strategies, data-driven decisions, and user engagement.
- Emphasis is placed on product optimization and experimentation techniques.

Module 3: Strategies for Managing Digital Products & Platforms

- Explore platform thinking, network effects, and multi-sided marketplaces.
- This module focuses on competitive strategy, monetization models, and product differentiation in the platform economy.

Module 4: AI Fundamentals & Applications in PM

- Covers foundational AI concepts and how product managers can apply AI in user experiences, operations, and decision-making.
- Practical applications in NLP, and predictive analytics are explored.

Module 5: Tools for Digital Product Management

- Introduces essential tools used in product development and management—from roadmapping and prototyping to analytics and feedback loops.
- Students gain hands-on exposure to industry tools.

Module 6: Leveraging Agentic AI for Strategic DPM

- Focuses on how agentic AI systems (autonomous, proactive agents) are reshaping product management.
- Emphasizes their strategic use in ideation, personalization, optimization, and workflow automation.

Module 7: Capstone Project

- A hands-on, team-based project where learners conceptualize, design, and pitch a digital product integrating agentic AI.
- It ties together knowledge from all modules into a real-world application.

PROGRAM DIRECTORS

Prof. Rishikesan Parthiban
Assistant Professor, IIM Trichy

Dr. Rishikesan Parthiban is an Assistant Professor in the Information Systems and Analytics area at IIM Trichy. He has completed his doctoral studies with a major in MIS and minor in Marketing from IIM Calcutta and graduated in Engineering from BITS Pilani, Rajasthan. He has served as an Assistant Professor in SPJIMR Mumbai and also worked in the VLSI chip design industry as a practitioner, for close to two years each. Rishikesan is a passionate teacher who teaches elective courses in the MBA program like digital product management, active digital debates, besides the core course in the information systems area. The core pedagogies he leverages are case based learning, lectures, tool based learning and dialectical debates. His primary research interests include digital social innovations, subsistence marketplaces and grand challenges. His research work (along with his co-authors) has appeared in leading journals such as Journal of Strategic Information Systems, Information & Organization, Information Technology & People, Information Systems Frontiers, International Journal of Information Management and European Journal of Marketing. His passion for digital social enterprises in general and those focussing on rural development in particular leads him to focus on action oriented approaches that better phrased as balance academic research with practical implications.

Prof. Gopinath K
Assistant Professor, IIM Trichy

Dr. Gopinath is an Assistant Professor in the Information Systems & Analytics area. He received his Ph.D. from IIT Madras. He holds an MBA from NIT Tiruchirappalli and B.E. in Computer Science from Anna University. He has more than 5 years of industry experience. He worked as a Consultant with Infosys, involved in business analysis, IT consulting, and solution design. His broad research interests include e-commerce, digital health, wearables, and disruptive technologies. He is keen to explore the adoption, digital transformation, and progression/evolution of innovative technologies. His research work appeared in peer-reviewed journals such as the International Journal of Information Management, Communications of the Association for Information Systems, Health Policy & Technology, and Technology Analysis & Strategic Management. He has presented his research work in national and international conferences.
